## Profile

Dedicated and highly motivated Computer Systems Engineer with a strong academic background and practical experience gained through a recent internship at Interroot (PTY) LTD. I am committed to pursuing a career that allows me to apply my skills to the real-world challenges. My goal is to leverage my education and practical experience to make a positive impact in the field of Computer Systems Engineering.

I am seeking an entry-level position that allows me to apply my skills, learn from the experienced professionals, and grow as a computer systems engineer. I am enthusiastic about embracing new challenges and am ready to contribute to the success of your organization.

## Experience

### Internship Experience:

Interroot (PTY) LTD  
Maseru, Lesotho  
09 September 2022 To 09 February 2023

- Assisted the engineering team in troubleshooting and resolving hardware and Software Issues, providing valuable technical support.
- Collaborated with the HR team in the use OrangeHRM System for Inserting employee data.
- Designed documents such as (Delivery note, Customer request, Job card)
- Database Management.
- Website Management.

The internship allowed me to apply my academic knowledge in a practical setting, reinforcing my commitment to a career in Computer Systems Engineering.

## Education

### Diploma In Computer Systems Engineering

Lerotholi Polytechnic (2023)  
Maseru, Lesotho
